

## Product Detail

- Weight- 6 KG
- Life expectancy - LED's to 100,000 hours
- Installation on 76mm post top unit
- Height 3.2m on a 4m post

### Additional Solar Panel Kit

- will overcome the lack of sunlight. recommended for all locations north of 53.5 degrees latitude.

### Intelligent Timer Module.

- Enables beacon to only operate during the times a business is open, hence reducing light pollution

### Globe Shroud.

- For installations within or near residential areas. The shroud partially covers the globe

### Benefits

- Cost effective replacement e.g. not functioning mains
- Zero energy consumption and CO2 emissions following installation.
- Lithium lead free environmentally friendly battery that can be re-charged 3,000 times, compared to only 500 times for lead batteries.
- Ambient Light Sensor (ALS) feature built into the bulb. This adapts the bulbs brightness to the human eye according to the external light conditions (not just auto dimming at night)
