

Product Detail

The St Annes bollard is manufactured with engineering-grade polyurethane, which is cast around a steel core. Resulting in an extremely strong that doesn't rust. can be manufactured to anti-ram specifications.

The St Annes will fit with most landscapes, whether traditional or contemporary. It is also ideal for coastal areas where high levels of saline are present.

St Annes bollards are supplied with a black, two-part polyurethane coating finish. This increases chip resistance and weathering characteristics, which is ideal for heavily trafficked areas.

- Length - 1305 mm
- Base – 202x 202 mm
